Computer Engineering Certificate holder, currently an undergraduate student studying Computer Engineering at Ahmadu Bello University Zaria. He is passionate about Information Technology, sustainability, and community development with 5years experience building different software, UI designs and hardware embedded systems for organizations, institutions, final year projects, and community development projects.

EDUCATION

Ahmadu Bello University, Zaria, Kaduna State. B.Eng. Computer System Engineering	2019 till date
Ahmadu Bello University, Zaria, Kaduna State. Dip. Computer System Engineering	**2016 - 2018**
Federal Government College Kano, Kano State. West Africa Secondary School Certificates (SSCE)	**2009 - 2015**

EXPERIENCE

Cofounder, and CTO
Bookafrica | 2023

I collaborated with creative minds from diverse field of expertise to build an idea into a real and sustainable business, where I have been required to take charge of the product design, development, and maintenance. – https://bookafrica.org

Web Developer
Martin and Monica Foundation | 2023

I was recommended to the foundation for the purpose of developing the organization's website, of which I was given the opportunity to work with the organization's Co-founders and some other team members of the organizations to deploy the software on the 31st of May 2023 as planned.

Web Developer & Graphics Designer
Alzillah Foundation | 2021 – till date

I had the opportunity to work with this organization base on my volunteer experience from a non-governmental organization I happened to work with, where I was given the task to design, develop, and manage the organization's website alongside creating media contents for its publicity. - https://alzillah foundation.org

Web Developer & Graphics Designer
PUP Industries | 2020 – till date

I worked with the management team of PUP Industries (The 2021/22 Enactus Nigeria National Competition winner) for a duration of 12 months, where I was given a task to design, and develop the company's ecommerce website for ease of reach for their customers. – https://pupindustries.com

General Secretary & Software development Lead
Enactus Ahmadu Bello University Zaria | 2021 – 2022

In the year 2021 I was nominated to the post for the 2021/2022 session. Alongside my other executives, we lead a team of 185 to the Enactus National Competition in Lagos that year, where we emerged the winners and represented Nigeria at San Juan Puerto Rico. As part of my goal as the general secretary was to digitalize the team and empower my team members with tech skills of which I successfully achieved and I and my development team developed the team's website, and created an automated team profiles for our members. – https://enactusabu.org.ng

UI/UX Designer
Respirare | 2023

I happened to join the Google Solution Challenge where I worked with three other team mates to develop a solution to health issues facing the communities. I was given the task of creating the User story and designing the interface for the developers to develop.
